

SURESTART Preventive Maintenance Service

Engines and Generators PM Level 8

Fuel Sampling

Fuel sampling provides indicators that identify degradation of fuel, microbial contamination, and other factors that contribute to reduced reliability.

Benefits of fuel sampling are:

- Increased reliability
- Reduced cost in fuel waste
- Proactive response to fuel issues
- *Recommended Testing: Complete test quarterly for critical power systems, mini-test annually for non-critical sites.*

SURESTART Service is a Quinn preventive maintenance and inspection program, custom designed to help reduce power system operating costs, prolong component life, and increase the overall reliability of your equipment.

Please call 800-789-9774 or
